

Step into our future

Our fundraising campaign

St Andrew's College

To whom it may concern

It is an honour to return to St Andrew's College at a time when the College is moving from one success to another while undergoing one of the most intensive capital improvement periods in its history. The post-earthquake era at St Andrew's College has been marked by highlights such as the new Preparatory School, the new boarding houses and reopening of Strowan House. It is now exciting to look to the approach of the centennial celebrations and the Board of Governors' vision to have a completed new Chapel and Sports and Cultural Centre by 2017.

Step Into Our Future is a commitment to the College ethos that an education shapes the young men and women who become our community and global leaders of the future. The Chapel embodies the heart of the College and its values. The Sports and Cultural Centre offers every child an opportunity to explore passions in sport and arts. The St Andrew's College Foundation provides managed funds which support educational objectives and scholarships for current and future generations.

St Andrew's College currently enjoys exceptional academic, strategic and financial leadership. The Rector's commitment to students and 21st century learning is unquestionable. The Board of Governors' focus on master site planning has optimised the situation created by the 2010 and 2011 earthquake destruction. A successful insurance settlement covers the majority of repairs and safety upgrades required by the College. The projects identified for Step Into Our Future require funding beyond insurance settlement and the Board's investment of operational funds towards upgrading facilities. We need your support to realise these projects which will benefit every student from Years 1 to 13 now and for years to come.

As the generations did before us, so too shall we ensure that those that follow us have the best of opportunities available. My personal commitment is to the College and you. With you we will strengthen our already strong culture of philanthropy that binds us all to this College.

I ask all of our students, parents, staff, friends and Old Collegians to join and support this campaign with the enthusiasm and spirit for which our College is renowned. I will work with you and ask that you work with me to make St Andrew's College even better as we proudly "Step Into Our Future".

Yours sincerely

Mark Stewart

Chairperson, Step Into Our Future | Chairperson, St Andrew's College Foundation | Old Collegian (1968-1980) and past parent
